PAINT-TO-ORDER SUMMARY

PAINT-TO-ORDER DOOR RANGES:

ENHANCED 2021 PAINT-TO-ORDER COLOUR PALETTE:

Paint-to-Order lead-times:

The stated lead-times for Paint-to-Order are for guidance purposes only and always subject to manufacturing capacity. An accurate lead-time, in the form of a delivery date, will be confirmed with each individual order acknowledgment.

Because of the variables between the photographic and print process, colours shown in print may vary slightly from the actual product supplied.

PAINT-TO-ORDER LEADTIMES

DOORS	Finish	Lead time	Remedial time
CLASSIC RANGES	Matt	15 working days	9 working days
1909	Matt	From 20 working days	12 working days
PORTER & REMO	Matt	15 working days	9 working days
PORTER & REMO	Gloss	*22 working days	*15 working days

See page 85 on how to order PAINT-TO-ORDER RANGES

Bespoke Door Sizes

MORE CHOICE, GREATER FLEXIBILITY

Our made-to-order service is available across 13 door families, including bespoke door sizes in some of our most popular stocked ranges, Paint-to-Order finishes and 3 dedicated made-to-measure door collections. Please see page references below for further Information by range.

The easiest way to order bespoke sizes is at pws.co.uk

FITZROY (PAGE 36)

- Any door size (Drawer/Door/Tall Door)
- Glazed / panel doors
- Available in 7 standard colours and our full Paint-to-Order palette

HUNTON (PAGE 42)

- Bespoke door sizes (Drawer/Door/Tall Door)
- Glazed door / panel doors
- Available in 4 standard colours and our full Paint-to-Order palette

MORNINGTON (PAGE 59)

- Available in Shaker and Beaded ranges
- Bespoke door sizes (Drawer/Door/Tall Door)

LEADTIME PAINTED

Made-to-Order lead-times

The lead-times for Made-to-Order are for guidance purposes only and always subject to manufacturing capacity. An accurate lead-time, in the form of a delivery date, will be confirmed with each individual order acknowledgement

How-to-order Mornington Bespoke doors

The easiest way to order is on www.pws.co.uk

To order bespoke sizes follow the following steps:

STEP 1. Input bespoke prefix code:

Code	Description
MBQBESPOKE	Mornington Beaded Bespoke size door
MGQBESPOKE	Mornington Shaker Bespoke size door

STEP 2. Choose door height/width (see size parameters above)

STEP 3. Choose further options (where relevant)

ORDERING BESPOKE DOOR SIZES IN UNITY

Unity Made-to-Measure Collection is available to order in bespoke sizes within set parameters (see below) or from a 'Quick Order List' of predefined sizes and codes (please see PWS Price List for fill order list and pricing). The easiest way to order Unity is at www.pws.co.uk

BESPOKE DRAWER/DOOR SIZE PARAMETERS

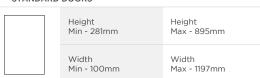

All door finishes are available in the following sizes:

- Minimum height 100mm to maximum height 2540mm
- Minimum width 100mm to maximum width 897mm

DRAWERS

	Height Min - 100mm	Height Max - 280mm
	Width Min - 100mm	Width Max - 1197mm

STANDARD DOORS

TALL DOORS

	Height Min - 896mm	Height Max - 2540mm
	Width Min - 100mm	Width Max - 897mm

How-to-order Unity

The easiest way to order is on www.pws.co.uk

To order bespoke sizes follow the following steps:

STEP 1. Input bespoke prefix code:

Code	Description
***BESPOKE	Bespoke size door
***should be replaced wit	th pre-fix of chosen door finish -

STEP 2. Choose door height/width

STEP 3. Choose further options (where relevant)

e.g. angled doors, door drilling etc. Please see each range page for relevant options

Made-to-Order lead-times

The lead-times for Made-to-Order are for guidance purposes only and always subject to manufacturing capacity. An accurate lead-time, in the form of a delivery date, will be confirmed with each individual order acknowledgement

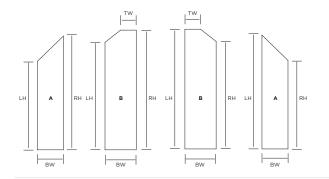

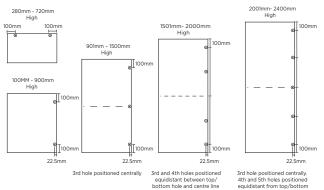

ANGLED DOOR OPTIONS

- Angled doors are available within the same door size parameters listed above (up to 2540x897mm)
- When ordering, please specify the type of angled door (A or B) and dimensions for Left Hand Height (LH), Right Hand Height (RH), Bottom Width (BW) and for stepped angled doors specify Top width (TW).
- Angled doors can be specified on www.pws.co.uk or by completing the PWS 'ANGLED DOOR ORDER FORM'.
- Additional 5 day lead time will apply to orders that include angled doors.

DOOR DRILLING SERVICE

Default hinge holdes by door size (based on standard PWS drilling pattern - see below) Please note: illustrations shown are left hand.

hole and centre line

- A door drilling service for Unity is available, charged at £1 a hole.
- PWS's recommended standard drilling pattern is 100mm (+/- 1mm) from the ends with a 13.5mm deep hole (+/- 0.5mm), hole diameter of 35mm (+/- 0.2mm) and centre of hole 22.5 (+/- 0.5mm) from the side from side.
- Door drilling can be selected at the point of order on www.pws.co.uk or by completing the PWS 'DOOR DRILLING ORDER FORM'.
- Additional hinge holes will be drilled by default depending on door height as indicated in the above illustrations.
- Top Box drilling is available for door heights between 280-720mm high (Top Box application must be specified at the point of order).
- Due to a directional finish, drilling on metallic doors should be stipulated left or right hand (please note illustrations shown above are left handed).
- Drilling is not available on angled doors or end panels.
- Please allow 3 days' additional lead-time to all orders that require drilling.
- PWS are unable to accept any surplus doors to be returned once they have been drilled

ACCESSORIES

All accessory sizes shown in Height x Width x Depth

Modern cornice / light pelmet

Feature posts

Plinth

End panels

***BESPOKE (input height/width)

End panels are available to order as a standalone product type in the same made-to-measure sizes as doors. End panels are supplied in a matching edge only and edged all 4 sides as standard

Pelmet and plinth are edged on one long side only with a matching edge.

COMPATIBLE WITH OUR HANDLELESS RAILS

With over 30 handleless rail products available in a choice of five trend leading finishes, our handleless rail solutions help create a contemporary linear aesthetic, in both modern and classic designs.

See page 3.71 For more information

Codes stated are suffix codes. Prefix code for door range/colour must be used when ordering.

DTDK1210X600	Deluxe tambour door kit, 1174x564mm

PAINT-TO-ORDER ORDER FLOW CHART

The easiest way to order is at www.pws.co.uk

When placing orders for paint-to-order doors please be aware of the following:

- Stated lead times for Paint-to-Order are designed as a guideline and always subject to manufacturing capacity.
 - An accurate lead-time, in the form of a delivery date, will be confirmed with each individual order acknowledgement.
- Orders for paint-to-order door ranges can be placed by email or via the PWS website.

 Upon receipt of each order to PWS you will receive an itemised order acknowledgement.
- $\bf 3$. Due to the bespoke nature of paint-to-order products, it is not possible to cancel or amend orders once placed.
 - Additions to an order will be processed as a new order.
- Orders for painted product will be dispatched upon completion of the full order No part orders will be dispatched.
- **5.** PWS cannot accept the return of surplus paint-to-order product.
- $\bf 6_{\, \text{\tiny a}}$ Although we strive to maintain consistency, as a painted product there will be batch-to-batch variances.

PWS cannot guarantee an exact colour match between orders. We do not recommend mixing doors ordered through paint-to-order with doors ordered from stock.

- The paint colours depicted in our marketing materials are indicative of the colours of the painted product.
 - Paint colours do vary batch to batch and substrate to substrate.
- 8. A selection of care and maintenance kits are available for paint-to-order colours.

CARE & MAINTENANCE KIT

Suitable for repairing minor scuff marks and scratches. For a full list of finish options see the price list.

Care & Maintenance Kit contents:

- 1x softwax
- 1x touch up pen
- 1x softwax applicator
- 1x scotchbrite pad

DOOR DRILLING SERVICE

PWS offers a door drilling service to help make your installation quicker, easier and more precise. This year, we're pleased to now offer this service for all stocked lay-on doors and paint-to-order products.

It's quick and easy to specify your requirements to us upon placing your order via the PWS website, **www.pws.co.uk**, with various options available to make the process as streamlined as possible.

AS STANDARD

- All hinge holes are based on a standard size - 35mm diameter (+/- 0.2mm) x
 13.5mm depth (+/- 0.5mm)
- Set positioning centre point 22.5mm from side (+/- 0.5mm), 100mm (+/- 1mm) from top/bottom
- Additional hinge holes will be drilled by default depending on door height as indicated on the illustrations opposite
- Upon ordering, please specify whether your door is to be drilled on the left or the right

bottom hole and centre line

3rd hole positioned centrally.
4th and 5th holes positioned equidistant from top/bottom hole and centre line

NEW DOOR DRILLING SERVICE FOR PAINTED PRODUCTS

Choosing to have your doors drilled before they are painted helps to significantly reduce damage – and makes things easier for you and your customers all round.

IT'S ALL MOVING ONLINE

Soon, we will be transitioning all drilling orders online (however we will still accept manual drilling order forms during the transitional period).

I FAD TIME

An additional 3 working days' lead time applies to all orders that require drilling.

KEY DETAILS

- Door drilling is charged at £1 a hole.
- Top Box drilling is available for door heights between 280-720m
- Drilling is not currently available on corner doors, curved doors, or end panels
- Unfortunately surplus doors are unable to be returned once they have been drilled

Please contact your customer services advisor for any help or advice on our door drilling service

1909 JOINERY SERVICE

In addition to drilling for conventional hinges, we also offer a joinery service for 1909 in-frame Shaker and Ovolo doors. This includes:

- Notched frame and doors for butt hinges
- An array of door beading options

It's quick and easy to specify your 1909 joinery requirements upon placing your order via the PWS website **www.pws.co.uk** - or alternatively speak to your customer services advisor for guidance.

All 1909 finishing touches are meticulously hand crafted through expert PWS craftsman with the very best care and attention to detail. The pleasure of fine design, lies in the finish.

See 1909 order process on page 1.130

CO-ORDINATING MFC BOARD OPTIONS

The below MFC board options are only suggested matches to our door colours and do not necessarily offer a direct match. We strongly recommend that you order board samples and compare against the door before making your final cabinet finish selection.

APPLIANCE DOOR COMBINATIONS FOR LAY-ON DOORS

To be used with appliances (600mm wide) in tower and studio units

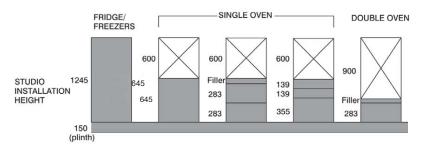

Appliance heights do vary, oven trimmers/fillers may need to be increased or decreased in size. It is advisable to check door sizes available before ordering appliances. Not all doors are available in every range, please refer to price list.

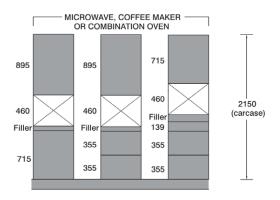

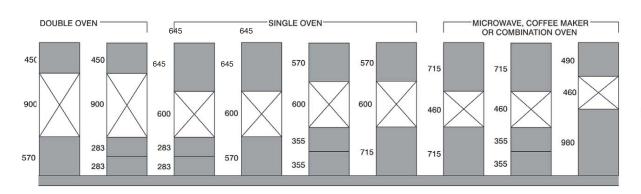

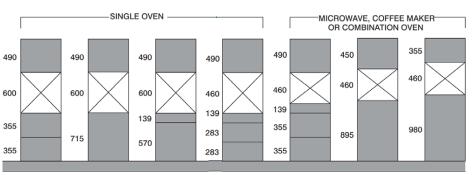

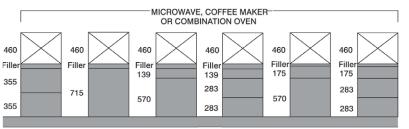

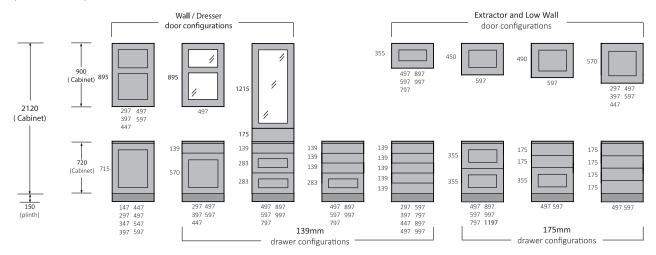

KITCHEN FASCIA MATRIX FOR HUNTON

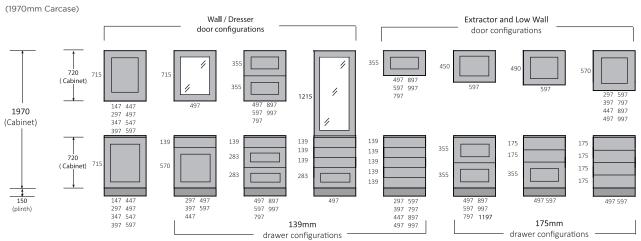

The below configurations are based on stocked sizes of Hunton range and all shown below avoid the need for filler panels. 400mm, 825mm and 685mm designed for filler free solutions on popular appliance configurations.

APPLIANCE DOOR COMBINATIONS FOR HANDLELESS PORTER AND HUNTON

Please use this document as a one page guide to understand the product availability in the Porter and Hunton ranges, when planning built in appliance housings in handleless design.

The majority of these configurations eradicate the need for fillers and are based on the industry standard; aligning with the majority of appliance brands. The sizes in the matrix below are inclusive of sizes available in Porter and Hunton from the lay-on ranges, to offer a wider breath of options.

Aperture sizes are shown adjacent to the appliance type, with the actual appliance size shown beneath, in italics.

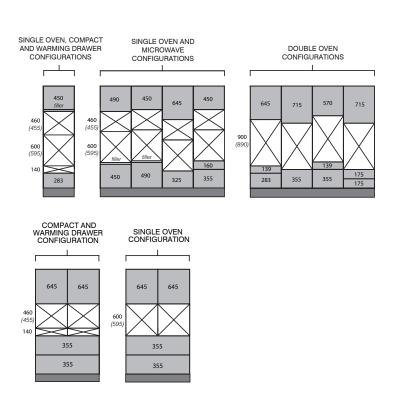

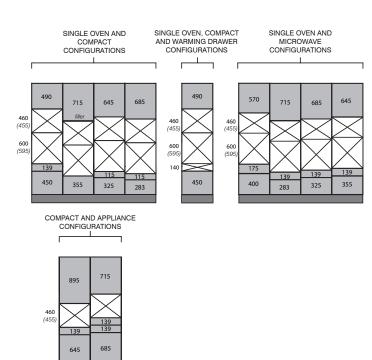

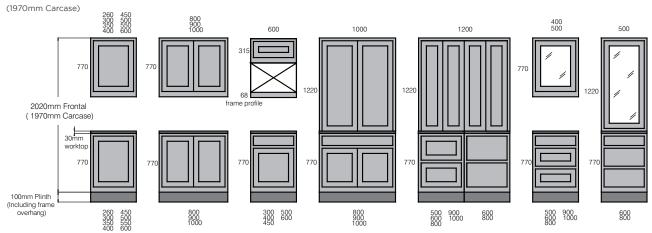

KITCHEN FASCIA MATRIX FOR CLARENDON

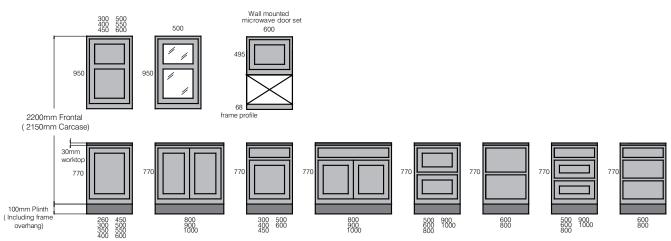

Please use this document as a one page guide to understand the product availability in the Clarendon range. The sizes indicated above and beneath the door sets highlight the widths available and the sizes on the LHS indicate the heights.

MEDIUM HEIGHT INSTALLATION

TALL HEIGHT INSTALLATION

2 X COMPACT CONFIGURATION

1909

1909 is a classic in-frame kitchen collection with a smooth painted finish. The collection is presented around three core door styles – a classic Shaker and Ovolo Shaker, which can both be customised with butt hinges and 4 bead options, and a Slab door style for a more contemporary look.

Available in sanded format or painted in our palette of 35 carefully chosen colours, 1909 also offers bespoke sizes with a comprehensive choice of detailed accessorisation to help you create a distinctly different look.

1909 balances period features, delicate proportions and modern functionality.

We have drawn from over 100 years of experienced craftsmanship to create a

collection of beautiful kitchens.

Photography shown: Shaker with Quarter Round beading in Hartforth Blue.

KEY FEATURES

- ✓ Classic in-frame collection available in a choice of 3 base door styles and 4 bead options
- ✓ Multiple product formats available sanded or painted (all door styles), beading and/or notching for butt hinges (Shaker and Ovolo only)
- ✓ Paint-to-order palette of 35 colours
- ✓ Made-to-measure sizes available for further flexibility
- ✓ Choice of Classic or Contemporary accessory styles
- ✓ Comprehensive collection of handle designs and finishes

NOW AVAILABLE IN COMPLETE FORMAT

for easier planning and installation

- Please note the size stated on the order **must** be the overall size, including the outer frame
- · Where notched doors are required,
- please state handing Special size door set are on a 23 working day lead time for sanded only, 31 working days on painted, notched and/or beaded Special size door sets are not available
- in corner door sets or curved door sets

 Special size glass door sets are supplied
- unglazed, as door frame only
- We are unable to alter the standard specification of the 1909 range
- The frames of special sized door sets are not pre-drilled
- Specials are not available in accessories
- · We reserve the right to decline a request to make a door set size where it is decided the size makes the item impractical for production or susceptible to future service faults. i.e. bowing

Calculation of Glass Size:
Glass Width = DOOR WIDTH - 141mm
Glass Height = DOOR HEIGHT - 141mm
e.g. Glass to suit a Door Set,

770x434mm - Door Size 661x356mm therefore Glass size = 520x215mm

TO FIND OUT MORE

Speak to your Area Sales Manager or contact Customer Services for a full technical guide.

Important Note: 1909 is constructed from a solid alder frame with flush joints. 1909 doors, in common with all other timber products, are subject to movement with changes in moisture levels in the environment. This movement may be expressed in the form of a hairline crack (also known as a 'whisper line') in the paint surface along the line of the joints. This is a natural characteristic of smooth painted timber furniture and does not represent a product fault. Whisper lines can be treated by over-painting.

Paint-to-Order lead-times:

The stated lead-times for Paint-to-Order are for guidance purposes only and always subject to manufacturing capacity. An accurate lead-time, in the form of a delivery date, will be confirmed with each individual order acknowledgement.
